

Autumn Hedgehog Scissor Cutting Skills

Create a cute paper hedgehog with lots of paper prickles!

Along with the Hedgehog Shape and Cut-Outs, you will also need some scissors and glue.

1. Begin by cutting out the hedgehog shape.
2. Next, cut out some zigzag strips – these will be the hedgehog's prickles!
3. Add a little glue along the bottom edge of the zigzag strips and stick onto the hedgehog. Try overlapping the strips to make layers of prickles. You could use some different shades of brown for extra effect too.
4. Any extra pieces of the zigzag strips can be trimmed off using scissors.
5. Once the hedgehog has lots of prickles, you can cut out some paper leaves to add onto your hedgehog too.
